

Genter Capital Management Dividend Income

Portfolio Date: 12/31/2023

Investment Objective & Philosophy

EQUITY INVESTMENT PHILOSOPHY - The strategy seeks to provide stable, tax-efficient cash-flow for the income-oriented investor as well as long-term capital appreciation by investing in Dividend Income paying stocks of large-cap companies. As a secondary consideration, investments exposing clients to less volatility to overall markets are favored.

Investment Process

INVESTMENT DECISION-MAKING PROCESS - The strategy is designed to take advantage of the reduced tax on dividends and provide principal protection during periods of rising interest rates. The portfolio's target dividend payout ratio is less than 60% to provide confidence that the dividend payout is sustainable. Our relevant universe of available securities consists of approximately 6,000 securities, representing almost the entire common US equity marketplace (and all ADRs). From this universe our equity analyst group excludes securities with a market-cap less than \$2 billion, a non-investment grade debt ratings, and a yield less than 2.5%. This screen condenses the universe of securities to approximately 200-250 issues. Analysts continue to further reduce the universe as fundamental and quantitative analysis is performed. A working list of 50-75 securities is eventually achieved. The final portfolio is normally constructed with 25-35 securities. After a security has been presented to the equity strategy group, there is a detailed review by portfolio management prior to inclusion in the strategy officially. If the name is deemed appropriate, the final decision is made by the Director of Equity, David Pescherine, CFA.

Characteristics

As of 12/31/2023

Dividend Yield	3.70%
Forward P/E 2024	14.40X
Price to Cash Flow	10.30x

The Dividend Income Composite contains fully discretionary equity accounts invested in stocks based almost entirely on dividend yield and dividend history. Key risks include the possibility of equity positions declining in value, causing the composite to underperform the benchmark. The iShares Russell 1000 Value ETF (IWD) aims to produce similar returns to the Russell 1000 Value Index. The ETF returns reflect the deduction of all expenses and transaction costs incurred by the IWD ETF. As of December 31, 2022, the expense ratio was 0.18%. The IWD ETF returns reflect the closing prices, which are determined by the last traded price of the ETF. The minimum account size for this composite is \$200 thousand. The Dividend Income Composite was created and inception on January 1, 2004. The firm's full list of composite descriptions and broad distribution pooled funds are available upon request.

RNC Capital Management LLC is a registered investment adviser under the Securities and Exchange Commission pursuant to the Investment Advisors Act of 1940, as amended, doing business as Genter Capital Management. Prior to January 2022, the firm was doing business as RNC Genter Capital Management. Beginning January 1, 2005, the firm has been redefined to include all the assets of Genter Advisors LLC.

Results are based on fully discretionary accounts under management including those accounts no longer with the firm. Composite policy requires the temporary removal of any portfolio incurring a client initiated significant cash inflow or outflow greater than or equal to 10% of portfolio assets. Additional information regarding the treatment of significant cash flows is available upon request.

The U.S. Dollar is the currency used to express performance. Composite time-weighted returns are presented gross and net of management fees and include realized and unrealized gains and loss, cash and cash equivalents, and reinvestment of related interest income and accrued based dividends. Gross returns are stated gross of all fees and net of transactions costs. Net of fee performance is inclusive of the actual management fees clients pay Genter Capital. Composite dispersion is measured by the asset-weighted standard deviation of annual gross returns of those portfolios included in the composite for the full year. The 3-year annualized standard deviation measures the variability of the composite gross returns and benchmark returns over the preceding 36-month period. Policies for valuing investments, calculating performance, and preparing GIPS Reports are available upon request. Prior performance is not indicative of future results.

The management fee schedule for accounts less than \$3 million in assets is: 2.00% on the first \$200,000; 1.50% on the next \$200,000; 1.00% on the balance. For accounts over \$3 million in assets: 1.00% on the first \$5 million; 0.75% on the balance. Actual investment advisory fees incurred by clients may vary.

Genter Capital Management claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. Genter Capital Management has been independently verified for the period January 1, 2001 through December 31, 2022. A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. The Dividend Income Composite has had a performance examination for the periods January 1, 2004 through December 31, 2022. The verification and performance examination reports are available upon request.
